

## Save Your Daughter

No. 185 West 88th Street,  
New York City, N. Y., April 5, 1905.

Wine of Cardui has been a blessing to my home. I have often found that it was a great relief when I was weary or in pain, but I am especially grateful for what it did for our daughter and only child. I noticed that her menses were tardy and she suffered with headaches and giddiness, heaviness in the abdomen and about the loins. This seriously interfered with her studies and she had to discontinue several of them.

A visitor calling on me and discussing the matter suggested that I give her a course of your Wine of Cardui as it had relieved her daughter of a similar trouble. After my great improvement in her looks, health and behavior, in fact she was a different girl. The flow became regular and we have not had any difficulty since.

Lizzie H. Thompson  
TREASURER, RAYMOND MEMORIAL ASSOCIATION.

## WINE OF CARDUI

Here the menstrual function had not been properly started and the unnatural condition was making the young girl an invalid. The headaches and giddiness, indicated something more than a mere temporary ailment. They were symptoms of a functional weakness which would become more and more aggravated as years went by. But Mrs. Thompson was ready to take advice for her daughter's welfare and she gave the little sufferer Wine of Cardui and now she is a well young woman.

If your daughter is sickly and frequently ailing the letter of this good mother contains the best advice you can follow.

Wine of Cardui is the menstrual regulator that cures nine cases out of every ten. Young girls, mothers and aged women find this tonic indispensable. All druggists sell \$1.00 bottles Wine of Cardui.

### How Whittier Raised Some Money.

An interesting story is told of the poet Whittier showing his ingenuity in getting subscriptions for a good cause. There were a number of carriage makers in Amesbury, where he resided, and, being once unable to collect cash in consequence of the prevailing commercial depression, he suggested that each might contribute some part of a carriage—one the wheels, another the body, etc. Thus all the parts of a complete carriage were given, and it was sold for the amount required.

### Breaking It Gently.

"You were a long time in the far corner of the conservatory last evening," suggested the mother. "What was going on?"

"Do you remember the occasion on which you became engaged to papa?" inquired the daughter, by way of reply.

"Of course I do."

"Then it ought not to be necessary for you to ask any questions."

Thus gently the news was broken that they were to have a son-in-law.

### Not Running on Ticks.

"You seem to be very quiet all of a sudden," said the clock.

"Yes, I'm all run down," replied the clock. "Time is money, they say, so I guess I must be bankrupt."

"That being the case," replied the key, "I'll appoint myself receiver and proceed to wind up your affairs."—Chicago News.

### Easily Pleased Then.

Nell—So their engagement is off? Belle—Yes. She says he was too hard to please. Nell—That's funny. He must have changed since he proposed to her.—Exchange.

### Confidential.

"Do you love me?" said the paper bag to the sugar.

"I'm just wrapped up in you," replied the sugar.

"You sweet thing!" murmured the paper bag.

### Happy.

Ethel—How happy Gladys looks tonight! Edythe—Yes, she expects to have a chance to accept Fred or turn down Charlie, and she doesn't care which.—Cincinnati Commercial Tribune.

## THE FREEZE IN FLORIDA

MUCH DAMAGE TO EARLY CROPS REPORTED FROM SEVERAL SECTIONS.

St. Augustine, Jan. 27.—This locality did not escape the visit of the cold wave which swept over the whole State. The lowest temperature recorded here was 18 degrees which was reached between 5 and 6 o'clock Thursday morning. Many of the truck growers of this locality have lost their crops of tender vegetables, but some have saved portions of theirs by protection. It is not believed that the orange trees have been damaged, although, of course, what fruit was left on the trees was frozen. The potato growers at Hastings do not expect any damage to their potato seeds, most of which have been planted.

### Down to 23 in Tampa.

Tampa, Jan. 27.—The cold snap visited this section with great severity. The temperature all day Wednesday rapidly fell, dropping 20 degrees in ten hours, and at 12 o'clock at night the thermometer at the United States Weather Bureau registered 28. Thursday morning the minimum point reached was 23, as recorded by the standard thermometer on top of the Government building.

The orange growers had warning of the approach of the cold snap, and a number of groves in this section were fired.

The standard thermometer near the ground at the residence of Weather Observer Taylor, on Tampa Heights, registered as a minimum 20½ at 7 o'clock a. m.

At Idlewild, a few miles north of here the minimum record was 18. Ice formed one-sixteenth of an inch thick in many places, and at some lower points in this section nearly a quarter of an inch.

The damage done by the cold snap appears to be confined to vegetables and the tender fruits, such as guavas, Avocado pears and the like. While some orange growers report that their fruit is frozen on the trees, all agree that there has been no damage to the trees, other than, perhaps, the falling of the leaves and the nipping of the tenderest growth on the new branches. The greater portion of the orange crop of this section had been gathered, so that the portion remaining on the trees, even if frozen, represents a comparatively small money loss. Some damage has been done in the pineapples. To what extent these are injured, it is too early to determine.

### Twenty-two at Lotus.

Lotus, Jan. 27.—The coldest weather of several years has visited this section, the mercury going as low as 22 degrees, and everything of a tender vegetation is frozen. Cannot tell as yet if oranges on trees suffered, but it is supposed that they escaped.

Be your own doctor by keeping on hand at all times a supply of Bitter Apple Bitters. It has never failed to bring a permanent cure in every case where it has been given a proper trial.

### Postmaster Confirmed.

Washington, Jan. 27.—The senate in executive session has confirmed the nomination of George F. Schad, as postmaster at Brewton, Ala.

## REBELLION IN SAN DOMINGO

MUCH EXCITEMENT CAUSED ON ISTHMUS BY ORDERS TO CRUISER DIXIE TO LEAVE AT ONCE.

Panama, Republic of Panama, Jan. 27.—Considerable excitement has been created on the isthmus by the receipt of orders by the converted cruiser Dixie to proceed at once to the island of San Domingo, where rebellion has broken out and become so general that assistance of the 500 marines quartered upon Empire Hill are considered absolutely necessary by the United States.

This cable order reached the Dixie late Thursday evening, and at once a message was transferred to Empire, where Colonel Wood had also received similar orders. These orders were for Colonel Wood to proceed at once to Colon with all his force, leaving only a small detail to guard the quartermaster stores on the hill.

Early Friday morning the orders were given to break camp. The battalion of marines at Empire have only been in camp a few weeks, having been brought down to relieve the 600 men who for fifteen months looked after American interests during the exciting days when the Republic of Panama was being created. About four weeks ago the Pacific carried back to America this force of men, and brought the battalion now in control of the zone under command of Colonel Wood.

The command consists of five companies, numbering in all a few over 500 officers and men.

### HORSE BACKED OVERBOARD ON BAYLEN STREET WHARF.

A horse attached to a dray backed overboard late yesterday afternoon from the Baylen street wharf, and for several minutes it was thought the animal would drown.

The animal became frightened and notwithstanding the efforts of the drayman, backed the dray over the side of the wharf, which had the effect of pulling the animal into the water.

The accident occurred directly in front of the fish house of Warren & Co., and but for the fact that there was a small boat near the animal would have drowned, but this enabled those near to cut the harness, and allow the animal to swim ashore.

### KNIGHTS OF HONOR INSTALL OFFICERS.

The installation of officers of the Knights of Honor occurred last night, when the officers chosen to serve during the ensuing year were sworn into office. With few exceptions all of the old officers were re-elected, which paid a deserved tribute to them.

After the installation the entire lodge proceeded to a restaurant, where a banquet was served, and which proved to be one of the enjoyable features of the event.

### Another Jennings Gusher.

Jennings, La., Jan. 27.—Wilkins oil well No. 3 was added to the gushing output of the Jennings field late this afternoon. When first brought in the well was gushing by spouts and making about 2,000 barrels per day. It is gradually getting better. The well was drilled into oil sand and the screen set about a week ago, did not prove a gusher until to-day.

### H. B. Saynor is Ill.

Many persons in Pensacola will be pained to learn that H. B. Saynor, at one time chief clerk at the Esplanade Hotel, is seriously ill at Columbus, Ga., where he is manager of one of the hotels. He was attacked a few days ago with a severe illness, and reports received in Pensacola are to the effect that he is in a serious condition.

### Protect the Back.

People are more likely to catch cold in the back than they are generally aware of, and if neglected it may prove a serious matter. The back, especially between the shoulders, should always be kept well covered, and never lean with your back against anything that is cold. Never sit with the back in a direct draft, and when warming it by the fire do not continue to keep the back exposed to the heat after it has become comfortably warm. To do so is debilitating.—Journal of Health.

### "Burned" by Cold.

Intense cold, as is well known, burns—if we may use the term—like heat. If a "drop" of air at a temperature of 180 degrees below zero were placed upon the hand it would have the same effect as would the same quantity of molten steel or lead. Every one who has the care of horses ought to know the pain inflicted by placing a frosted bit in a horse's mouth. It burns like hot iron.

### Uninterested.

"Over there, ladies and gentlemen," said the guide to the party of "personally conducted," "are the famous mud baths of"—

"Don't interest me," said the gentleman from the United States indifferently. "I've run for office too many times at home."—Puck.

## CONSUMPTION CURED AT HOME

"Keep the System Toned Up with DUFFY'S PURE MALT WHISKEY, and Any Case of Consumption Can Be Cured and Prevented, No Matter Where You Live or What Your Occupation."

"It's Unsatisfactory, Cruel and a Mistake to Send the Afflicted to California, Colorado, Etc., in the Delusive Hope of Recovery."

"The Fight Must Be Made Right at Home Where the Disease Started."

So Agree Lung Specialists Attending the Medical Association's Convention at Atlantic City.

Dramatic Agent Putmon Thankfully Tells of His Providential Recovery by Duffy's Pure Malt Whiskey.

"I was flat on my back in Cincinnati. It was after ten long, hard months on the road as advance agent for theatre companies, no longer. I caught a heavy cold and it settled on my lungs. Doctors dosed me as usual, but I was steadily going to a consump-

An old actor friend recommended Duffy's Pure Malt Whiskey. I tried it. Felt better the first week. In two weeks doctor said he needn't call again. To keep on taking 'Duffy's' and I'd soon be cured. And I am cured; strong, husky, never better in my life, and it took only four bottles. Have come through another season in perfect shape." C. Putmon, care Billboard Publishing Company, Cincinnati, Ohio. July 30, 1904.

## Duffy's Pure Malt Whiskey

Consumption seldom attacks until the system is run down and weakened by sickness, overwork, worry, exposure or inherited tendencies. The secret of the marvelous success of Duffy's Pure Malt Whiskey in curing and preventing lung troubles lies in the fact that it's the greatest strengthener and health builder known to medicine. It not only checks the ravages of the disease itself, but replaces the weakened, destroyed tissues; helps the stomach to more perfectly digest and assimilate food in order that more power, carrying health and vigor to every organ and part of the human body. The idea that a consumptive's only chance for life is to send him to Colorado or California to fret himself to death was effectively exploded at the Medical Association's Convention, a few months ago at Atlantic City, where leading consumption specialists declared that the only successful place to treat lung troubles was right at home, where the disease originated, and that Duffy's Pure Malt Whiskey is the most effective means of fighting this awful scourge to the human race.

Duffy's Pure Malt Whiskey is absolutely pure and free from fusel oil—the only whiskey recognized by the Government as a medicine. It has been prescribed by doctors of all schools and sold by reliable druggists and grocers everywhere for over 50 years. \$1.00 a bottle. Every testimonial is published in good faith and guaranteed. Medical booklet free.

CAUTION—Be sure you get the genuine Duffy's Pure Malt Whiskey, manufactured by Duffy Malt Whiskey Co., Rochester, N. Y., and put up in sealed bottles, with the "Old Chemist" trade-mark on the label. It's never sold in flask or bulk. Beware the many substitutes and imitations offered by unscrupulous dealers, because of the extra profit. They not only will not cure, but are positively dangerous.
